Pediatric OT Needed

Excellent opportunity to join a dynamic, well-established, multi-disciplinary team in a private practice as Pediatric Occupational Therapist.

Responsibilities include program development, evaluation and treatment, goal development and review, collaboration with other professionals, team meetings, school and home observation, and general clinical documentation.

Competitive compensation includes medical, dental, and paid vacation benefits. Mentoring, continuing education opportunities, and program development are an integral part of this position.

Desired Skills and Experience

Must have current GA License. Clinical experience working with children who demonstrate sensory processing disorders, bilateral motor coordination, gross and fine motor delays, and feeding disorders. Experience working closely with Speech-Language Pathologists preferred. Integrated Listening Systems, Interactive Metronome, and TLP training a plus.

Company Description

Speech Pathology Services of Atlanta is a nationally recognized, fully integrated Speech-Language and Occupational Therapy center. Our mission is to improve the lives of children with sensory processing, emotional regulation, motor coordination, speech, auditory processing, reading, and feeding difficulties. Our programming is based on neuroscience and cutting-edge principles and is tailored to meet the unique needs of each individual.
