### ***Section I.***

This agreement articulates the acceptance of credit fulfilling the requirements of Brenau University's B.S. Healthcare Administration Degree from Lanier Technical College's Health Information Management Technology Degree, HI13.

### ***Section II.***

The tables in section V, along with appendix A (if applicable), detail the courses that Brenau University will accept as transfer credit, and how the transferring institution's respective coursework, corresponds to Brenau University's degree program requirements. Other college courses taken at a degree-granting higher education institution with institutional accreditation by a US Department of Education recognized accrediting body may also be presented on a case-by-case basis for evaluation as transfer credit to Brenau University. This list is not all-inclusive and should be reviewed and updated periodically by the registrars of both institutions participating in this agreement to reflect changes in the curriculum at either institution. The agreement will remain in effect until the vice pres presidents of Academic Affairs at either institution gives notice that the agreement should be discontinued at the end of the semester in which such notice is communicated in writing. Should this occur, students currently in the program would still be able to complete their program.

### ***Section III.***

A grade of "C" or better is required for transfer. Transfer credit is awarded for courses taken at regionally accredited institutions and cannot be awarded based on placement tests or non-class credit awarded at other institutions.  
(Continued on next page)

1. The university will accept ALL liberal education courses regardless of the date of satisfactory completion unless the liberal education course is also a major course.
2. The university will accept major courses taken within 15 years unless listed below.
3. The university will accept major courses taken within 5 years for the specific courses listed below.
4. Exceptions to any policy above will go to the dean of the appropriate school for a final decision.
5. Courses with technical content (e.g. computer programming/applications, etc.) taken over five years prior to admission may not be eligible for transfer.
6. Changing majors after an admissions decision has been made may alter the eligibility of courses that have been already designated on a previous program plan.
7. Developmental Studies and English as a Second Language Courses do not transfer.
8. In no case will a student be permitted to transfer more than 65 semester hours of credit (97 quarter hours) from two-year institutions to a Brenau program. This 65-hour limit represents the total of all credit taken at all two year colleges the student might have attended before applying for admission to Brenau. This 65-hour maximum does not affect Brenau's minimum residency requirement.
9. Departments reserve the right to require a student to take a prerequisite course for a Brenau course at a four-year institution.

Courses transferred to Brenau are recorded in semester hours. If taken at the previous school in quarter hours, the following calculation is used: quarter hours / 1.5 = semester hours. (ex. 4.5 quarter hours / 1.5 = 3 semester hours)

**Electives:** Electives are not listed on the program plan by the Admissions Office, however all courses are posted to the student's transcript. Electives needed for graduation can be calculated simply by:

Adding  
 The total number of hours on the student's transcript  
 (available in CampusWEB)  
 - hours earned for courses taken at the developmental level  
 + courses currently registered for  
 + courses still outstanding.

A minimum of 120 semester hours is required to graduate from Brenau University. After completing liberal education and major requirements, if the total number of hours on the student's transcript is not at 120, then the student must take enough general elective hours to reach a cumulative total of 120 hours. If a course is repeated, it is the student's responsibility to contact the Registrar's Office to adjust the earned hours on their transcript so that they are not short hours at graduation. Due to placement, a student may graduate with more than 120 semester hours.

*Financial aid recipients cannot receive aid for courses repeated unnecessarily or for courses not specifically required for their degree.*

**Healthcare Management Major Courses: (27 hours)**

**Residency requirement:**

A residency requirement of 30 semester hours is required to graduate from Brenau University. This includes a major residency of 21 semester hours.

**Note: This program plan is not an official document. It is a tool to assist the student and adviser in schedule planning.**

*This program plan was prepared by the Registrar's Office.*

*Revised 03/2023*

LE –Liberal Education course. All LE courses are noted on the plan whether satisfying a LE requirement or not.
